### MANAGEMENTS DISCUSSION AND ANALYSIS

---

As management of the Village, we offer readers of the Village of Calvin's financial statements this narrative overview and analysis of the financial activities of the Village for the fiscal year ended June 30, 2006. We encourage readers to consider the information presented here in conjunction with the Village's financial statements.

The Management's Discussion and Analysis (MD&A) is an element of the new reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

#### FINANCIAL HIGHLIGHTS

##### *Governmental Funds*

- The assets of the Village exceeded its liabilities at the close of the most recent fiscal year by \$139,535 (*net assets*). This is an \$841 decrease from last year.
- The Village had total revenue of \$13,281, in which \$10,120 came from fees and charges. This is a \$271 increase from last year's revenues.
- The Village had total expenditures of \$23,674, which is a \$7,859 decrease from last year. This decrease is due to a decrease in personnel and administrative expenditures.

##### *Enterprise Funds*

- The assets of the Village exceeded its liabilities at the close of the most recent fiscal year by \$533,867 (*net assets*). This is a \$11,048 decrease from last year.
- The Village had total revenue of \$70,476, including operating revenues of \$69,340 and non-operating revenues of \$1,136. This is a \$16,594 decrease from last year, mainly due to a decrease in grant monies.
- The Village had total expenses of \$86,757, in which \$65,757 was operating expenses and \$21,000 was non-operating expenses. This is an \$15,188 decrease from last year, mainly due to a decrease in repairs and maintenance.

## **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the Village's basic financial statements. The Village's basic financial statements consist of two components: 1) fund financial statements, and 2) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. The Village is a special-purpose entity engaged only in governmental activities. Accordingly, only fund financial statements are presented as the basic financial statements.

## **FUND FINANCIAL STATEMENTS**

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

## **USING THIS ANNUAL REPORT**

The Village's annual report consists of financial statements that show information about the Village's funds, enterprise funds and governmental funds.

Our auditor has provided assurance in his independent auditor's report, located immediately following this Management's Discussion and Analysis, that the Basic Financial Statements are fairly stated. Varying degrees of assurance are being provided by the auditor regarding the other information included in this report. A user of this report should read the independent auditor's report carefully to ascertain the level of assurance being provided for each of the other parts of this report.

## **Reporting the Village's Most Significant Funds**

The Village's financial statements provide detailed information about the most significant funds. The Village may establish other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using grants and other money. The Village's enterprise fund uses the following accounting approach:

All of the Village's services are reported in an enterprise fund. They are reported using the full accrual method of accounting in which all assets and all liabilities associated with the operation of these funds are included on the balance sheet. The focus of proprietary funds is on income measurement, which, together with the maintenance of equity, is an important financial indication.

**ACCOUNTANT'S COMPILATION REPORT**

The Honorable Bob Carpenter, Mayor  
and Members of the Board of Aldermen  
Calvin, Louisiana

I have compiled the accompanying basic financial statements of the governmental activities, the business type activities, and each major fund of the Village of Calvin, Louisiana, as of and for the year ended June 30, 2006, which collectively comprise the Village's basic financial statements as listed in the table of contents, in accordance with Statements of Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements, information that is the representation of management. I have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

The management's discussion and analysis and budgetary comparison information, on pages 1 through 5 and page 25, are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. I have compiled the supplementary information from information that is the representation of management, without audit or review. Accordingly, I do not express an opinion or any other form of assurance on the supplementary information.

**and Changes in Fund Balances of Governmental Funds**  
**To the Statement of Activities**  
**For the Year Ended June 30, 2006**

Amounts reported for governmental activities in the Statement of Activities are different because:

Net Change in Fund Balances, Total governmental Funds, Statement E	\$ 10,607
--	-----------

Governmental funds report capital outlays as expenditure. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	-0-
--	-----

The issuance of long-term debt (bonds, leases, etc.) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs premiums, discounts, and similar items when debt is issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	-0-
--	-----

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(12,452)

**Notes To The Basic  
Financial Statements**

## **Village of Calvin, Louisiana**

### **NOTES TO THE BASIC FINANCIAL STATEMENTS**

#### **(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Village of Calvin was incorporated under the provisions of the Lawrason Act. The Village operates under the Mayor-Board of Alderman form of government. The Village provides the following significant services to its residents as provided by its charter: public safety (police and fire), highways and streets, utilities (water, gas and sewer services) and general administrative functions, including coordination of related services with parish, state and federal governing bodies.

The Village applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

The accounting and reporting policies of the Village of Calvin conform to generally accepted accounting principles as applicable to governments. Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statutes 24:517 and to the guides set forth in the Louisiana Municipal Audit and Accounting Guide, and to the industry audit guide, Audits of State and Local Governmental Units.

The following is a summary of certain significant accounting policies:

#### **A. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### **B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

## Village of Calvin, Louisiana

### NOTES TO THE BASIC FINANCIAL STATEMENTS CONTINUED

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The municipality reports the following major governmental funds:

The General Fund is the municipality's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund

The municipality reports the following major proprietary fund:

- Enterprise Fund-Water and Sewer

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the governments enterprise operations. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues are charges for services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The Village has a policy of applying expenses to restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

#### C. FIXED ASSETS

For the year ended June 30, 2006, no interest costs were capitalized for construction of fixed assets.

Depreciation of all exhaustible fixed assets is charged as an expense against its operations. Accumulated depreciation is reported on the proprietary fund balance sheet and governmental fund statement of activities. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

	Life In Years
Buildings	40
Water System	40
Sewer System	40
Equipment	5-10

#### D. BUDGETS & BUDGETARY ACCOUNTING

The Village follows these procedures in establishing the budgetary data reflected in these financial statements:

- (1) The Village clerk prepares a proposed budget based on departmental group budget requests, and submits the same to the Mayor and Board of Aldermen for approval.
- (2) The Village does not utilize the budget in comparison form in financial statement presentation during the year.
- (3) All budgetary appropriations lapse at the end of the fiscal year.
- (4) The Village does not utilize encumbrance accounting.
- (5) The budget was amended during the year.

#### E. CASH & INVESTMENTS

All cash and investments (CD's over 90 days) are reported at cost and are on deposit as following federally insured banks:

It is the Village's policy for deposits to be 100% secured by collateral at market or par, whichever is lower, less the amount of the Federal Deposit Insurance Corporation insurance. The Village's deposits are categorized to give an indication of the level of risk assumed by the Village at fiscal year-end. The categories are described as follows:

- *Category 1* – Insured or collateralized with securities held by the School or by its agent in the Village's name.
- *Category 2* – Collateralized with securities held by the pledging financial institution's trust department or agent in the Village's name.
- *Category 3* – Uncollateralized.
